Subject: Leave them alone.

It is my desire that you simply leave Microsoft alone. They have done so much for our world, the computer age, and advances beyond belief. If they make money by doing so, then so what? Doesn't evryone need money? On top of that, they are giving back to our society, not only with unimaginable feats in techology, but through monetary gifts as well. GO! MICROSOFT!! Let's clean out our own closets, then maybe our views will be clearer. Peggy Youngblood
